

Whittier Elementary PTA
presents

*Firearms are the leading cause of death for children in America.
Every year, about 350 children under the age of 18 gain access to a firearm and unintentionally shoot themselves or someone else.
Nearly 700 more children die by gun suicide every year and secure storage can play a crucial role in preventing those deaths.
The Be SMART campaign, a program of Everytown for Gun Safety Support Fund, was developed to reduce the deaths, injuries, and trauma that result when children gain access to unsecured firearms.*

Be SMART is a conversation about kids, guns, and safety and is designed to help parents and other adults prevent child gun deaths and injuries – whether they own guns or not.
